

OIL-SEALS

(RADIAL SHAFT SEAL)

MAKE
PARAKH

We at **PARAKH RUBBER HOUSE** manufacture all kinds of Oil Seals: Normal Designs, Special Designs or Custom Made as per your specifications. Important properties to consider are good chemical resistance, good resistance to heat and high/low temperature, good resistance to ozone and weather aging, good elasticity, high resistance to water, low compression set and raw material cost.

Our Oil Seal is used to seal rotating shafts, especially in Mechanical Engineering and in Equipment Construction, as well as in the Motor Vehicle Industry.

Size range : up to 1500 mm

MATERIALS INCLUDE:

- ☑ Nitrile
- ☑ Silicone
- ☑ Viton (Viton are registered trademarks of Dow Elastomers Inc.)
